

Greetings!

Russ Schmidt here from **Stock-Charts-Made-Easy.com** with your inaugural edition of Chart Wealth's **Stock Market Vista**.

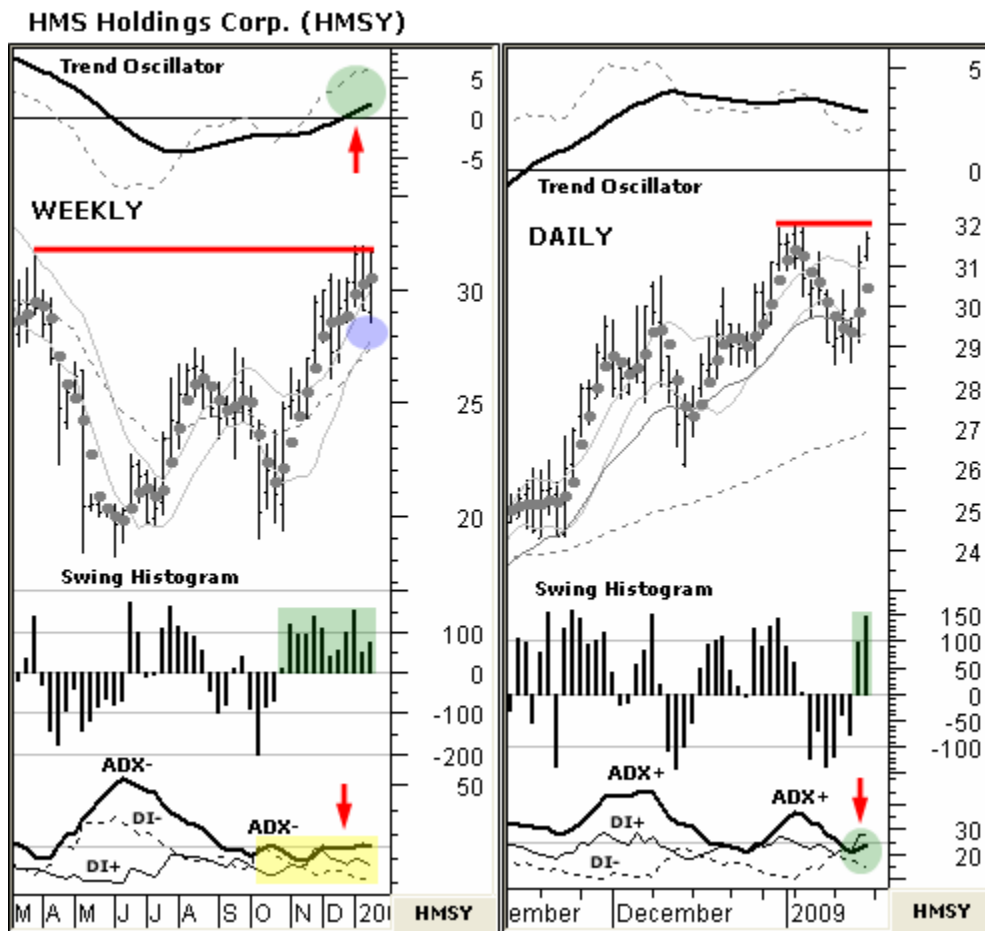

This edition will focus on a single stock... selected by using the **TOP SCORE** method presented in Dr. Charles Schaap's book, [INVEST WITH SUCCESS - Big Profits for Small Investors](#).

TOP is an acronym for **trend, overhead and price**. Basically, you want stocks in an **up-trend** with **low overhead** (distance to next major resistance) and **trading above \$10**.

SCORE is a **five-point fundamental criterion** that filters-out the weaker stocks.

I chose the **growth stocks of the Russell 2000 Index**.

After 30-minutes of applying the TOP SCORE filter I was left with **16 stocks...** from which I selected **HMS Holding Corp. (HMSY)**. I placed the other 15 stocks on my **watch list**.

Looking at the weekly chart of **HMSY**, notice the **Trend Oscillator** and the **Swing Histogram** are in positive territory.

Also **Welles Wilder's ADX** has been "**quiet**," possibly ready for a breakout.

The **light blue oval** shows an area of support created by the [moving average channel](#).

Moving to the daily chart of **HMSY**, the Trend Oscillator and the Swing Histogram are to the plus-side in this time frame, as well.

The **ADX+** and the **DI +** have **crossed above the 25-line** and remain there.

Buy **HMSY** once price breaks and holds **above \$32**.

I highly encourage you to grab a copy of [Invest With Success](#). It will **cut-down your stock selection time**, considerably.

I hope you enjoyed the premiere issue of **Stock Market Vista**.

Until next time...

Good trading,

Russ Schmidt, Editor
Stock Market Vista
